Group Guitar Class Registration Form

Registration forms will be accepted until the first day of class, or until the class is full.

Step 1: Choose a Class (Please mark one)

Beginning Group Guitar	This class covers all the basics – from naming the parts of the guitar to strumming chords and picking Tabs. If you've never played before, or if you don't feel overly confident in your skills and would like some support, this class is for you.
Intermediate Group Guitar	Upon completion of Beginning Group Guitar, you will be ready for the Intermediate class. In order to be successful in this class, it is important that you are confident with the basic chords in the keys of C and G and that you can read and play Tabs.
Advanced Group Guitar	This class is for those that are ready to move on to more complex chords and accompaniment styles. If you have completed the Intermediate class, you should be ready for the Advanced level. The most important qualifications for this class are hand and finger strength (especially your left hand) and confidence with basic chords, strumming and finger picking.
